

14 Spetember 2016

Notified amendment to NZTA/NZRF T 8

Following consultation with NZTA, the NZTA/NZRF T 8 specification is amended immediately.

This amendment allows for Initial certification to be carried out my two Testing Officers working together under specified condition.

This change will be incorporated into the T 8 specification when it is next revised.

8.4 Entry qualification

(a) Initial T/8 Certification by an approved Issuing Officer or a Testing Officer subject to the conditions of 8.5 following.

8.5 Initial T/8 certification

Initial certification can be carried out by an Issuing Officer but may also be carried out as follows:

Any Testing Officer may carry out Initial Certification where that testing is carried out under observation and verification by another Testing Officer who is independent of the Roadmarker.

The Roadmarker must agree the arrangement for Initial Certification employing Testing Officers with the Registrar, before testing is carried out.
